GLOBAL SOLUTIONS
FOR HEAVY MACHINERY

2019
Acquisition of the companies, Bateman Manufacturing and Winkle Industries.

A new, 24,000 sq. Ft. extension is added to the GRYB facility.

2017
Following a new extension, the company now has a facility totalling 69,000 sq. Ft.

2016
Groupe R-Y Beaudoin becomes GRYB.

2015
Acquisition of Magnet Quebec.

2014
A new 23,000 sq. Ft. factory is constructed.

2013
A new range of products is developed, including a screening bucket and a concrete pulverizer.

2010
Equipment upgrade, including the addition of a welding robot and CNC lathe.

2009
Inauguration of a new 10,000 sq. Ft. facility.

2007
Groupe R-Y Beaudoin is established.

WE MANUFACTURE A COMPLETE LINE OF DURABLE, HIGH-EFFICIENCY HEAVY EQUIPMENT ATTACHMENTS.

RECOGNIZED FOR OUR DEVOTION AND EASE OF COLLABORATION, WE ARE CONSTANTLY LOOKING FOR NEW, INNOVATIVE SOLUTIONS.

Through each of our 5 divisions, ATTACHMENTS, MAGNETIC, HANDLING, LIFTING and MACHINE MODIFICATIONS, we stand out by adapting our products to all active machines on the market in addition to realizing a multitude of personalized projects which has made us renown from the beginning.

Our efforts are focused on quick execution and delivery that surpasses that of our competition, while providing personable individualized customer service. We work in close collaboration with our clients in order to simplify their daily requirements.

We offer a multitude of solutions!

Custom and turnkey projects, financing options, equipment loans, and bits of advice!

All solutions are good when it comes to simplifying the large-scale projects of our clientele. Our corporate culture is innovation-based and our clients reap the benefits.

SERVICE PROJECT

REFURBISHMENT AND REPAIR

WE OFFER REPAIR AND RECONDITIONING SERVICES FOR YOUR ATTACHMENT

Even if it is not a GRYB attachment, it is with great pleasure and efficiency that we will fix it thanks to our competent team!

Whether it's a parts replacement, an addition piece, or a modification to improve your attachment, GRYB is committed to meet all your specifications.

GRYB IS A PASSIONATE, INNOVATIVE, AND DYNAMIC TEAM!

Coordinated to respond quickly and efficiently to all customers.

Our team of representatives and on-the-road technicians are always available.

SPECIAL APPLICATION PRODUCT

OUR DEPARTMENT OF DESIGN AND TAILOR-MADE MANUFACTURING IS SPECIALIZED IN CUSTOM PROJECTS.

From a simple sketch on a napkin, we can offer you designs adapted to your specific needs. We transform your ambitions into reality thanks to our impressive team of engineers and draughtsman entirely dedicated to our customer's projects.

Our team never backs down from a request, every custom project is considered a stimulating challenge, and everything is done to surpass the expectations of our customers.

Contact our sales team to see your ideas come to life!

GRY3

AM Series

REVERSIBLE QUICK-COUPLER

ONLY REVERSIBLE COUPLER AS STRONG AS A PIN-ON

HYDRAULIC AND MECHANICAL COMPATIBLE

- Attaches lower than other brands
- Available in several sizes (holds up to 20 tons)

CUSTOM MADE TO SUIT YOUR NEEDS

- Compact design

PCH Series

QUICK HITCH PIN GRABBER STRUCTURE

MAXIMIZE THE WRENCH POWER AND STRENGTH OF YOUR MACHINE

Dual safety system

Available with hydraulic or mechanical systems

Our Pin Grabber is made of heavy duty steel and is available with a hydraulic system and dual safety system in case of hydraulic system pressure failure.

The Pin Grabber is also available with a semi-manual mechanical system and a spring system for an automatic coupling multi-center / center for all attachments.

Equipped with a manual safety restraint system to ensure safe use on all excavation work.

Available for excavators ranging from 7.5 to 85 tons

HYDRAULIC INSTALLATION KIT

- Hydraulic valve
- Pressure limiting device (2x)
- Electrical assembly
- Audible alarm

Ai Series

TILTING QUICK-COUPLER

TRANSFORM YOUR STANDARD BUCKET TO A 180° TILTING BUCKET

With cylinders

AVAILABLE IN SEVERAL CONFIGURATIONS

- With any type of quick-coupler

STANDARD

45° inclination on each side.

Tilt 90° and more depending on model

HELAC

Adaptable to all of our equipment or excavators ranging from 3.5 to 40 tons.

360° tilt and rotation

TILTROTATOR

GRYB maximizes the yield of your attachments by combining efficiency, power, and versatility.

Compact design and robust construction allows tilting up to 55°.

Offered in several standard configurations and compatible with any other type of attachment.

AFE Series

STANDARD FEMALE COUPLER

MAXIMIZES THE PERFORMANCE OF YOUR ATTACHMENTS

COMPATIBLE WITH ALL QUICK DISCONNECT FASTENERS AND PIN-ONS.

EASILY ADJUSTABLE TO YOUR BUCKET.

CUSTOMIZED DESIGNS TAILORED TO YOUR NEEDS.

With or without excess under the quick-coupler

Bolted plate also available

AFR Series

FEMALE COUPLER

AFE and AFR models are built with an excess so you can attach them to your buckets by yourself.

GRYB OFFERS NUMEROUS FEMALE COUPLER MODELS COMPATIBLE WITH EVERY TYPE OF FEMALE COUPLER.

Every client is unique and therefore GRYB's research and development department is continuously working towards finding the best solution for each of its clients.

PUB Series

CONCRETE PULVERISER

FASTEST AND STRONGEST ON THE MARKET

Interchangeable female coupler

- A STRONGER JAW THAN THE STANDARD PIN-ON

- TAKES ONLY 5 MINUTES TO INSTALL
(10 X FASTER THAN OTHER BRANDS)

- INTERCHANGEABLE TOP PLATE
(COMPATIBLE WITH ALL TYPES OF EXCAVATORS)

Their elite design can crush, break, or pulverize several types of concrete.

Equipped with interchangeable teeth, their design offers durability and increased crushing power.

Made of heavy-duty steel, they are more resistant to wear than regular steel.

We exclusively offer interchangeable female couplers compatible with all our standard products.

CRUSHING FORCE

* Crushing power may vary from one coupling model to another. Crushing power can vary depending on material crushed. Please contact us to ensure

Exclusivity

Interchangeable female coupler compatible with your quick-coupler, no modifications required.

Each concrete pulveriser model is compatible with two types of excavators.

**Other models and sizes available on request.

¹ Quoted weight does not include top plate.

² The indicated weights exclude female couplers

³ The indicated weights exclude the top plate

- **Fastest implementation system with best force ratio on the market**
- **Interchangeable bolted-on top plate (compatible with all excavator models)**
- **Compatible with all quick-coupler models**
- **No auxiliary hydraulic needed for the mechanical system; reducing maintenance needs**
- **Strategic teeth positioning reduces splinters to maximize on-site security**

GT Series

SCREENING BUCKET

SCREEN ON SITE WITH ONE MACHINE
AND ONE OPERATOR

Adjustable hydraulic wheel motor

HEAVY DUTY FOR ALL TYPES OF WORK

- REVERSIBLE HYDRAULIC WHEEL MOTOR
 - ULTRA DURABLE
 - ADJUSTABLE FROM 12 to 34 RPM
- Decontamination | Rock | Recycling**

7 DIFFERENT MODELS AVAILABLE

(depending on the technical specifications of your machine).

AVAILABLE

Interchangeable bolted mesh as an option from 0.25 in to 12 in. for easy switch on worksite!

Interchangeable bolted screens

NO MAINTENANCE REQUIRED | STURDY | REDUCES OPERATION COSTS

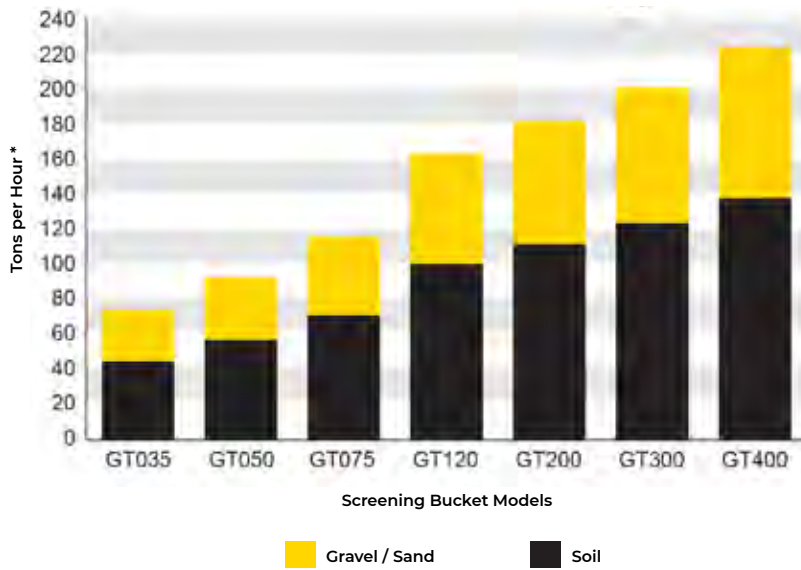

MADE FOR EXCAVATORS RANGING FROM 3.5 TO 65 TONS.

ALSO AVAILABLE FOR YOUR LOADER

Order our loader compatible coupler so that you can use your screening bucket on your loader!
We aim to offer attachments to satisfy all your needs.

PRODUCTIVITY

* Subject to change depending on humidity

PERFORMANCE

The performance of our screening buckets varies according to several factors such as screen dimension, soil quality, temperature and machine operator.

The graph to the left estimates the possible performance for each model in ideal conditions.

ALL OF OUR SOLUTIONS ARE ADAPTABLE TO THE MACHINERY AND THE SPECIFIC REQUIREMENTS OF CONTRACTORS IN SEVERAL INDUSTRIES, SUCH AS MINING INDUSTRY.

XHD Series

EXTREME HEAVY-DUTY BUCKET

IDEAL FOR USE WITH TERRAIN THAT HAS
BEEN MINED OR BLASTED

**SAFETY FACTOR 4X THE MAXIMUM
STRENGTH OF THE EXCAVATOR.**

**LOADING AND DUMPING AT OPTIMIZED
ANGLES.**

**RECOMMENDED CHOICE IF YOU CHANGE
YOUR TEETH EVERY 200 HOURS.**

**AVAILABLE FOR EXCAVATORS RANGING
FROM 20 TO 120 TONS.**

- Easily interchangeable bolted-on wear plates
- Wear plates are added on the backing and side boards to prevent premature wear
- The half-arrow edge is 100 %protected
- Heel shrouds will protect your bucket welds from abrasion and premature wear
- The V-shaped blade makes penetrating blasted materials easy

These buckets are designed for the worst winter and mining conditions.

- Manufactured from extremely wear-resistant materials and are assembled with great precision.
- Our XHD buckets are subject to several quality tests and are approved by an engineer.

G4P Series

4-IN-1 BUCKET

COMBINES THE USE OF A GRAPPLE, THE STRENGTH OF A STANDARD THUMB, AND THE FUNCTIONS OF A DITCHING BUCKET

- COMPACT AND VERSATILE DESIGN
- ELIMINATE MAINTENANCE PROBLEMS
- 45° INCLINATION ON EACH SIDE

AVAILABLE FOR EXCAVATORS RANGING FROM 3.5 TO 40 TONS.

- Better precision and control
- Maximizes the efficiency of your attachment
- Improves safety on construction sites
- Increases machine productivity and versatility

PROPOSED COMBINATION WITH TILTING QUICK-COUPLER

- 45° inclination on each side
- Maximizes the efficiency of your attachment
- Available for all types of quick-couplers

EASILY SWITCH BETWEEN LEVELING, HANDLING, DIGGING, AND EXCAVATING.

GPT Series

TILT DITCHING BUCKET

45° TILT ON EACH SIDE

-SUPERIOR DESIGN, 45° TILT ALLOWS MOVEMENT ON EACH SIDE.

-SAVES TIME AND MONEY FOR THE OPERATOR.

-AVAILABLE IN DIFFERENT SIZES AND CAPACITIES FOR DIFFERENT TYPES OF WORK AND EXCAVATORS.

AVAILABLE IN 2 OPTIONS:

- WITH CYLINDERS
- WITH HELICAL ROTATION (HELAC)

- HYDRAULIC CYLINDERS WITH TOTAL PROTECTION FROM DEBRIS
- HARDENED CHROME-PLATE AXLE WITH GREASEABLE WEARING RINGS
- AVAILABLE IN MULTIPLE DIMENSIONS AND CAPACITIES FOR DIFFERENT TYPES OF WORKS AND EXCAVATORS

AVAILABLE FOR EXCAVATORS RANGING FROM 3.5 TO 40 TONS.

Interchangeable female coupler

Hardened chrome plate

Interchangeable bolted blade optional

GPF Series

DITCHING BUCKET

FILLING AND DUMPING AT OPTIMIZED ANGLE

BUILT SOLID

GRYB ditch buckets are built with solid and resistant steel, allowing you to work with great precision. Available in different sizes and capacities for different types of work and excavators.

- Filling and dumping at optimized angle
- Reversible quick-coupler available up to 15 tons
- For excavators ranging from 1.5 to 40 tons

GSF | GSD Series

SKELETON BUCKET

IDEAL FOR RECYCLING MATERIALS

BUCKET MADE OF HEAVY-DUTY STEEL EXTENDED WEAR RESISTANCE

MAINLY DESIGNED FOR EXCAVATION AND DITCHES.

- Space between plates can be customized from 1 in to 24 in based on your needs
- General purpose model also available
- For excavators ranging from 12 to 40 tons
- Optional: interchangeable bolted cutting edge
- Optional: interchangeable bolted teeth

Custom made to suit your needs

Spacing for the fork opening from 1 in to 24 in

GPV Series

TRAPEZOIDAL BUCKET

PERFECT FOR TRENCH DIGGING

- Saves time
- 45° cutting edge angle
- Optional: interchangeable teeth
- For excavators ranging from 3.5 to 40 tons

GRD Series

RECESSED BUCKET

TO OPTIMIZE FORCE

NEW!

The **GRYB Recessed Bucket** combined with a standard Pin Grabber provides excavation power equal to the original bucket thanks to its exclusive shape, which respects the conventional excavator tilting radius.

PEI Series

ROOT RAKE

IDEAL FOR CLEARING AGRICULTURAL OR WOODED LAND

The curvature makes extraction and handling a breeze. Whether it's clearing farmland or forests, nothing can stop it.

- Extra heavy-duty steel design
- Available in different sizes for different types of work

PROPOSED COMBINATION

A grapple or a thumb can be added to your rake.

This combination will assist you during your material handling situations. It is the needed helping hand to speed up work.

Interchangeable teeth optional

- CHOICE OF INTER-FINGERS SPACE
- CHOOSE THE NUMBER OF FINGERS
- ANTI-TRAPPING SYSTEM INCLUDED

RIP Series

RIPPER

THE ARCHED SECTION ALLOWS FOR EASY PENETRATION OF ROCKY AND FROZEN GROUND

Bolted-on interchangeable tooth

- Made of heavy duty steel
- Offers a superior digging force and a leverage effect
- Available in different sizes for different types of work and excavators

- INTERCHANGEABLE BOLT-ON TOOTH
- MINIMAL MAINTENANCE
- FOR EXCAVATORS RANGING FROM 1.5 TO 85 TONS

STS Series

STUMP SHEARS

IDEAL FOR CLEARING FARMLAND OR FORESTS

Bolted-on interchangeable teeth

Female bolted and interchangeable quick-coupler

2 interchangeable cutting edges

INNOVATIVE DESIGN

Allows you to perform long range jobs thanks to the ideal shape and angle of clearance of the removable part.

For excavators ranging from 1.5 to 40 tons.

- 2 X STRONGER THAN THAT OF THE COMPETITION
- BUILT OF EXTRA HEAVY-DUTY STEEL
- NOTHING STANDS IN THE WAY OF OUR ROOT RAKE!
- MECHANICAL ARM AND SUPPORT INCLUDED

POB Series

HYDRAULIC THUMB ON AXLE SUPPORT

FACILITATES MOVING LARGE OBJECTS OR SETTING DOWN ITEMS IN SPECIFIC PLACES

- CHOICE OF 2-4 FINGERS
- OUR IMPROVED DESIGN ALLOWS YOU TO MAINTAIN GOOD VISIBILITY
- 135° ROTATION, LOCKED VALVE INCLUDED

Fixed on the axle support, this thumb design follows the rotation of your bucket and allows maximum yield when performing your work.

Available in different sizes, for any type of excavator.
FOR EXCAVATORS RANGING FROM 1.5 TO 40 TONS

XHD HYDRAULIC CYLINDER

POB SERIES

PROGRESSIVE THUMB
PPB SERIES

UNIVERSAL EXTENSIBLE
HYDRAULIC THUMB
POG SERIES

AL Series

QUICK-COUPLER

DESIGNED TO OFFER MAXIMUM VISIBILITY AND EASY CHANGE OF ACCESSORIES

HIGH-RESISTANCE HYDRAULIC CYLINDERS WITH ALL-ROUND PROTECTION

- Designed to offer maximum visibility and easy change of accessories.

- Made of heavy-duty steel and assembled with great precision, these products offer outstanding reliability and quality.

We manufacture all quick-hitch models.

High-strength steel

Assembled with great precision

COMPATIBILITY

Compatible with all female couplers and all loader models.

COMPATIBLE JRB

COMPATIBLE CATERPILLAR

COMPATIBLE VOLVO

AFL Series

FEMALE COUPLERS

STURDY AND DESIGNED TO MAXIMIZE YOUR BUCKET'S PERFORMANCE

- WITH EXCESS FOR ALL BUCKETS AND CARRIAGE MODELS
- COMPATIBLE WITH ALL MANUFACTURER'S QUICK-COUPERS
- DESIGNED TO MAXIMIZE YOUR BUCKET'S PERFORMANCE

CUSTOM DESIGN

We produce all female coupler models compatible with the manufacturer's quick-couplers.

Specify your exact model and we will provide you with the required coupler.

COMPATIBLE JRB

REPLACEMENT SERVICE

Mention your specific model and we will be able to produce the fitting for your equipment.

COMPATIBLE CATERPILLAR

COMPATIBLE EDF

COMPATIBLE VOLVO

GLH Series

EXTREME-USE ROCK BUCKET

WEAR RESISTANT FOR WORK ON ROCKY OR
BLASTED TERRAINS

QUALITY CONTROL

Our Extreme-Use Rock Buckets are subject to several quality tests and are approved by an engineer.

Each part is preheated to the recommended temperature and then welded in a controlled heat to provide outstanding resistance.

- OPTIONAL INTERCHANGEABLE BOLTED CUTTING EDGE
- OPTIONAL INTER-TEETH TO PREVENT BLADE WEAR
- INTERCHANGEABLE AND BOLTED WEAR-PLATES

GLI Series

HIGH DUMP BUCKET

IDEAL FOR LIGHT MATERIALS SUCH AS WOODCHIPS, SAND, ETC.

- **OVERSIZED ROD FOR INTENSIVE WORK**
- **DUMP ANGLE UP TO 120°**
- **HIGH CAPACITY**

COMPLETE TOOL

This bucket is the most versatile attachment for light and multi-purpose work.

It boasts two hydraulic cylinders, enabling 120° of effortless release.

Damping pads are installed to minimize impact on return to the working position.

HD hydraulic cylinder

Bolted and interchangeable blade optional

Damping pads

GLL Series

LIGHT-MATERIALS BUCKET

IDEAL FOR LOADING LIGHT MATERIALS
SUCH AS SNOW, WOODCHIPS, ETC.

- PROVIDES GOOD VISIBILITY

- OPTIMAL FOR SNOW REMOVAL OR LIGHT MATERIALS

- WIDE RANGE OF BUCKETS

GRYB's wide range of buckets will exceed your expectations. If it is for normal use, a better lifting capacity when working with light materials, or to improve your work in rocky and blasted terrain, these buckets are designed to offer superior functionality and durability. If you want to remove or add specific pieces to your equipment, our team will assist you and create, with your help, the best possible performance tools.

Quick-disconnect fastener compatible with all types of quick-hitches

Interchangeable bolt-on blade included

Fork-heel protectors

**GENERAL-PURPOSE
BUCKET GLC SERIES**

COMBINATION

Complete your snow removal work more quickly and efficiently by adding a snow pusher.

GLD Series

SIDE-DUMP BUCKET

WEAR RESISTANT FOR WORK IN ROCKY OR BLASTED TERRAINS

- DUMPING ANGLE UP TO 70°
- OVERSIZED ROD FOR DEMANDING WORK
- SEQUENTIAL HYDRAULIC DISTRIBUTOR

FOR A SAFE WORK ENVIRONMENT

This bucket simplifies loading trucks in places where access is too small for a conventional loader.

Side-Dump Buckets are equipped with a security system, and sequential automatic release distributor for the locking device when dumping and locking back up in order to ensure a safe work environment at all times.

HD Hydraulic cylinder

Optional: Bolted blade

GLP Series

GRAPPLE BUCKET

PRECISION HANDLING FOR YOUR DEMOLITION WORK

- **LOADING AND DUMPING AT OPTIMIZED ANGLES**
- **THE WIDEST SECTION OF THE GRAPPLE RELEASES THE BLADE**
- **OVERSIZED ROD FOR INTENSIVE WORKLOADS**

ROBUST DESIGN

Compatible with all types of quick hitches

HD Hydraulic cylinder

Optional: Bolted-on blade

This bucket was conceived and designed with two grapples to offer a robust product for your professional needs.

The pronounced curvature of these two grapples allows precision handling for your demolition work.

They are an asset for the transportation of construction materials.

GLX Series

SKELTON BUCKET

IDEAL FOR SORTING AND RECYCLING MATERIALS

FOR BACKHOE LOADERS AND WHEEL LOADERS

- CUSTOM MADE TO SUIT YOUR NEEDS
- SPACING BETWEEN FORKS AVAILABLE IN INCREMENTS OF 1 IN TO 24 IN

Size of adjustable holes

Optional: Bolted and interchangeable blade

PROPOSED COMBINATION

COMBINING OUR SKELETON BUCKET AND GRAPPLES GIVES YOU THE VERSATILITY OF TWO ATTACHMENTS IN ONE FOR YOUR SORTING NEEDS.

THE BUCKET CAPACITY WILL ALSO BE DECOUPLED.

FL Series

UNDERCARRIAGE

FOR ALL YOUR LIFTING AND HANDLING REQUIREMENTS

- **STURDY CONSTRUCTION**
- **FORKS ON A SIDE SHIFT AXIS**
- **DESIGN OFFERS OPTIMAL VISIBILITY**

- Compatible with hydraulic and mechanical systems
- Various forks available
- Wide variety of models and several sizes available

PROPOSED COMBINATION

Equip your undercarriage with grapples to enhance your handling precision.

With its ease of handling, you're sure to love this combination instantly!

Optional: Top protector

Various fork options available

Hydraulic and/or mechanical systems

UNDERCARRIAGE WITH FORK ON AXIS
(12,600 lb AND MORE)

UNDERCARRIAGE WITH FORK IFA
(21,600 lb AND LESS)

LBM Series

JIB BOOM

WARRANTY

2
YEARS

EXTENDIBLE ARM FOR HARD-TO-REACH AREAS

- INCREASES CONSTRUCTION SITE SECURITY
- OPTIMIZED DESIGN OFFERING VISIBILITY AND SAFETY IN COMPARISON TO LIFT ATTACHMENTS
- GROWING DEMAND FOR THESE PRODUCTS FOLLOWING NEW GOVERNMENT CERTIFICATION (CSST, UNIONS, CITIES, HYDRO-QUEBEC, ETC.)

LIFTING CHART INCLUDED

All our Jib Booms come with an engineer-certified lifting chart.

Optimized design offering visibility and safety in comparison to lift attachments.

Growing demand for these products following new government certification (CSST, unions, cities, Hydro-Quebec, etc).

TYPES OF QUICK-HITCHES AVAILABLE

- Trailer hitch
- Standard hook
- Pejo hook
- Shackle

BlueGRYB™

BC Series

ROTATING ICEBREAKER

CRUSHES ICE QUICKLY AND EFFICIENTLY

WARRANTY

2 YEARS

3 X FASTER THAN STANDARD ICEBREAKING OPERATIONS, EVEN AT VERY LOW TEMPERATURES.

UNIQUELY-ANGLED HELIX DESIGN FEATURES A 7-TOOTH SERRATED ROLLER INSTALLED EVERY HALF INCH TO AVOID MARKING GROUND.

- CRUSHES ICE UP TO 2 IN THICK
- AUTOMATICALLY ADAPTS TO GROUND LEVELLING

Interchangeable bolted-on teeth

Unique angled helix design features a 7-tooth

Rubber shock absorbers

Interchangeable bolt-on teeth assemblies

25.75" O.D.

3-Row Teeth Assembly

28-Teeth per Row = 84 Teeth per hub Assembly

Teeth Retainer Hub Assembly

IDEAL FOR:

- SIDEWALKS
- ROADS
- PARKING

BlueGRYB^{MC}

SEVERAL WIDTHS

Ranging from 41 in to 103 in

- Breaks ice up to 2 in thick
- Operation speed between 25 and 40 km / h
- Abrasive and melting material reduction (green solution)
- Interchangeable teeth bolted on by section to minimize maintenance costs
- Uniquely-angled helix design features a 7-tooth serrated roller installed at every half inch to avoid marking the ground
- Rubber dampers for shock absorption

S Series

DIRECTIONAL SNOW PUSHER

PERFECT FOR CLEARING SNOW FROM PUBLIC ROADS

- DIRECTIONAL BLADE
- AUTOMATIC GROUND LEVELING AND SWIVELING
- SHOCK-ABSORBER SYSTEM
- BOLT-ON LATERAL SIDES

Shock-absorber system

Several types of blade available

Swiveling, mechanical or hydraulic lateral sides

PROPOSED COMBINATION

Combine your snow pusher with an optional extension to maximize your snow-clearing operations.

Available in different sizes.

S Series

REVERSIBLE SNOW PUSHER

WARRANTY

2
YEARS

SEVERAL MODELS AND DIMENSIONS AVAILABLE

- Open pusher
- Sealed pusher with retraction blade
- Open pusher with retraction blade

Snow pushers with pivoting panels are guaranteed for a maximum of one year.

- **DIFFERENT CHOICE OF BLADES**
(TEFLON, HIGH-RESISTANCE STEEL, OR ICEBREAKER)

- **WELDED SIDE PANELS**
(DIFFERENT LENGTHS AVAILABLE)

- **OPTIONAL TOP RETRACTION BLADE**

MAGNETICS

DIVISION \ GRYB

RAILWAYS

RECYCLING

SEPARATION

HANDLING

MINING INDUSTRIES

The MAGNETICS division specializes in the creation and manufacture of magnets and electromagnets that are specially designed to increase productivity and facilitate work in each of the industries we work with. We offer solutions for handling, cleaning, separation, etc.

All solutions are perfectly adaptable to the machinery and the specific requirements of contractors, as well as the numerous custom projects for which we are known.

PC Series

SCRAP MAGNET

POWERGRIP

SORTING, CLEANING AND HANDLING FOR SCRAP YARD

DEEP-FIELD DESIGN

- HEAVY-DUTY STEEL CASING
- OFFERS AN EXCEPTIONAL CAPACITY-WEIGHT RATIO
- PERFECT COMBINATION WITH A GRAPPLE
- Standard size from 36", 40", 48", 57" and 63" available at all times
- Custom design available
- Aluminum coil
- H-class insulation

HD wire

Chain included

Robust construction

AVAILABLE ATTACHMENTS

- Dangling female coupler
- Rigid female coupler for magnets
- Universal attachment for grapples
- Chains (included)
- Special attachments available on request
- Optional teeth system available (ideal with top plate)

POWERGRIP MAGNETS

PowerGrip magnets are designed and manufactured following the highest industry standards to meet the growing demands of the market.

The competitive price and light weight of these magnets makes them an excellent choice to perform your daily tasks in the scrapyards and will complement other equipment such as grapples.

XG Series

SCRAP MAGNET XTREMGRIP

HANDLING AND LOADING FOR SCRAPYARD, STEEL PLANT,
AND PORT OPERATIONS

EXTRA DEEP-FIELD DESIGN

Depending on the application, several sizes are available, between 68" and 96".

- **ROBUST FABRICATED STEEL CASING**
- **IDEAL FOR SEVERE-DUTY OPERATIONS**
- **H-CLASS INSULATION**

- **Optimized power-weight ratio**
- **Optional teeth system available**
(Ideal with top plate)
- **Increased performance**
- **Greater lifting capacity**
- **Heavy-duty chains and cables included**

XTREMGRIP MAGNETS

Ideal for intensive loading and unloading of scrap metal, for handling works, for steelworks, as well as for port operations.

They are designed and manufactured for severe-duty operations in handling scrap metal.

The deep-field and robust design makes these magnets very powerful and durable.

AVAILABLE ATTACHMENTS

- Dangling female coupler
- Rigid female coupler for magnets
- Chains
- Custom attachments available on request

HYDMAG Series

HYDRAULIC MAGNET

PERFECT FOR YOUR DEMOLITION PROJECTS

Several types of attachments available

Built with XG or PG magnet

EASY TO INSTALL

EASY TO SWITCH FROM ONE MACHINE TO ANOTHER, ONE MAGNET IS NOT DEDICATED TO ONLY ONE MACHINE.

OPTIONAL FAST WIRELESS OR SOLID WIRE DEMAGNETISATION.

INDEPENDANT SYSTEM

HYDMAG magnets are an important asset to any demolition equipment fleet. This unit is completely independent.

The generator is installed directly onto the magnet. Once the hydraulic hoses are connected to the excavator, you are ready to work.

The optional DMAG allows for a quick demagnetisation of the magnet.

BM Series

BATTERY MAGNET

PERFECT FOR LIGHT SCRAP METAL HANDLING DUTIES

- NO GENERATOR NEEDED
- EASILY ADAPTED TO YOUR MACHINE
- MAGNETS OF 28 IN AND 48 IN CAN BE USED WITH 12 V OR 24 V WITHOUT A LOSS OF STRENGTH
- POWERED BY YOUR EQUIPMENT BATTERIES
- IDEAL FOR RAILWAY REPAIR OPERATIONS

Several types of attachments available

- HMI included
- Chains included
- 80 or 100-amp controller
- Operator control with pedal

AVAILABLE OPTIONS

- Joystick
- Extra controller for multiple equipments
- Battery pack
- Conversion from 12 V to 24 V
- Several types of attachments
- Teeth solution

Due to their ease of installation, our magnets can be installed on various machines by simply adding a controller to the equipment.

MH Series

HANDLING MAGNETS

SECURES, FACILITATES, AND DECREASES HANDLING PROCESSES

COMPLETE TAILORED SOLUTIONS

- COPPER OR ALUMINUM WOUND MAGNET AS REQUIRED
- INSTALLATION ON MOUNTING BRIDGE, FORKLIFT, OR ANY OTHER HANDLING MACHINE

INTELLIGENT CONTROLLERS

Controls are state-of-the-art with intelligent controllers linked to an HMI screen.

It is also possible to know the weight of the load lifted by each magnet in real time.

- Complete engineering service
- Hot work design available
- Controller and battery backup management
- Electro-permanent magnets
- Magnet improvement
- Magnet repair

CUSTOM DESIGN

GRYB MAGNETICS has the expertise to manufacture steel handling magnets in various forms, tailored to your needs.

GRYB's strength lies in its innovative features as well as its creativity to meet the needs of clients.

Whether you're handling plates, loads of tubes, load of rods, rollers, or any other steel product, we have the solution.

CPMAG Series

PERMANENT MAGNETIC SEPARATOR CONTINUOUS CLEANING

THE CPMAG SERIES IS THE MOST ECONOMICAL IN TERMS OF SELF-CLEANING SEPARATORS.

CPMAG series is designed for intensive use and for handling a high volume of materials.

Easy to use, the separator requires almost no maintenance and can capture all sizes of ferrous particles at a moderate distance.

SUSPENSION HEIGHT UP TO 12"

AVAILABLE OPTIONS

- OVERSIZED COMPONENTS
- MANY BELT OPTIONS
- SEVERE SERVICE
- HYDRAULIC MOTORIZATION
- WEAR PLATE
- CHOICE OF MOTOR VOLTAGE

PMAC Series

PERMANENT MAGNETIC SEPARATOR MANUAL CLEANING

IDEAL FOR MINES, AGGREGATES, CRUSHED STONE, WOOD MILLS, MRF, STEEL SHREDDERS, USED SOIL PROCESSING, AND FOUNDRIES

Ideal for protecting equipment and handling low volumes of iron.

- NO OPERATING COST
- NO DC POWER REQUIRED
- MAINTENANCE FREE
- SUSPENSION HEIGHT UP TO 12"

AVAILABLE OPTIONS

- WEAR PLATE
- CLEANING SYSTEM

CEMAG Series

ELECTROMAGNETIC SEPARATOR CONTINUOUS CLEANING

THE CEMAG SERIES IS THE MOST EFFICIENT IN TERMS OF SELF-CLEANING SEPARATORS.

- ALUMINUM WINDING WITH HIGH QUALITY NOMEX INSULATION
- WIDE RANGE OF AVAILABLE POWER: 3 KW TO 45KW
- BELT WITH 2 INCH CLEATS (OTHER OPTIONS AVAILABLE)
- OIL COOLED WITH EXPANSION TANK
- DIRECT DRIVE CLASS II MOTOR
- HEAVY-DUTY STEEL CASE
- 100% DUTY CYCLE

AVAILABLE OPTIONS

- MANY BELT OPTIONS
- WEAR PLATES
- SPECIFIC MOTOR BRANDS AVAILABLE ON REQUEST
- BELT PRESENCE DETECTION
- HYDRAULIC MOTORIZATION
- CHOICE OF INPUT VOLTAGE
- 100 VDC OR 230 VDC OUTPUT VOLTAGE
- OVERSIZED COMPONENTS FOR MINING APPLICATIONS

EMAG Series

ELECTROMAGNETIC SEPARATOR MANUAL CLEANING

Featuring a machine-off cleaning mode, the EMAG series is designed to handle small volumes of iron.

- ALUMINUM WINDING WITH HIGH QUALITY NOMEX INSULATION
- WIDE RANGE OF AVAILABLE POWER: 3 KW TO 45KW
- HEAVY DUTY STEEL CASE
- 100% DUTY CYCLE

AVAILABLE OPTIONS

- WEAR PLATES
- 100 VDC OR 230 VDC OUTPUT VOLTAGE
- CHOICE OF INPUT VOLTAGE

POMAG Series

PERMANENT MAGNETIC PULLEY

MAGNETIC PULLEYS ARE INSTALLED ON NEW OR EXISTING CONVEYORS TO TRANSFORM THEM INTO SELF-CLEANING SEPARATORS. OPTIONAL DEFLECTOR AVAILABLE TO COMPLETE THE SYSTEM.

- RESISTANT STAINLESS STEEL ENCLOSURE
- 100% DUTY CYCLE
- CONTINUOUS MAGNETIC FIELD
- NO OPERATING COST
- CUSTOM SHAFT DIMENSIONS
- MAINTENANCE FREE
- DIAMETER CAN BE CONFIGURED UP TO 48 IN.
- LENGTH CAN BE CONFIGURED UP TO 96 IN.
- EXCELLENT RETURN ON INVESTMENT
- AVAILABLE IN RARE EARTH MAGNET CONFIGURATION FOR EVEN MORE POWER

DMAC Series

PERMANENT MAGNETIC DRUM

GRYB'S MAGNETIC DRUMS ARE DESIGNED TO SEPARATE HIGH CONTENT OF FERROUS MATERIALS FROM NON-FERROUS MATERIALS. DRUMS ARE DESIGNED TO PROCESS HIGH VOLUMES OF MATERIALS WITH MINIMAL MAINTENANCE.

“DEEP FIELD” DESIGN

- LOW OPERATING COST
- CUSTOM DIMENSIONS
- 100% DUTY CYCLE
- RARE EARTH MAGNET
- LENGTH CAN BE CONFIGURED UP TO 96 IN.
- DIAMETER CAN BE CONFIGURED UP TO 36 IN.
- MANGANESE WEAR PLATES
- EXCELLENT RETURN ON INVESTMENT
- CUSTOM SHAFT DIMENSIONS

PERMANENT MAGNETIC SWEEPER

IDEAL FOR FACTORIES, AIRPORTS, MINES, SAWMILLS, AND SORTING CENTERS.

THE AIB SERIES IS BUILT TO CLEAN WORK AREAS.

EASY TO USE, THE SWEEPER REQUIRES NO MAINTENANCE AND CAN CATCH ALL SIZES OF FERROUS PARTICULES AT AN IMPRESSIVE DISTANCE, PREVENTING DAMAGE TO VEHICLES AND TO WORKERS.

- RESISTANT STEEL ENCLOSURE
- 100% DUTY CYCLE
- NO OPERATING COST
- STAINLESS STEEL CLEANING SYSTEM
- SUSPENSION HEIGHT: 4"-6"
- NO ELECTRICAL MAINTENANCE
- OPERATING SPEED : UP TO 18 MPH
- REMOVES UNDESIRABLE TRAMP METAL FROM WORK AREAS
- PREVENTS DAMAGE TO VEHICLES
- IMPROVES WORKPLACE SAFETY
- TOWING OPTION AVAILABLE
- CUSTOM WIDTH

HYDRAULIC GENERATOR

This generator, equipped with a controller, is designed to be very compact. The available hydraulic power potential on the machine provides the power to operate the electromagnet.

A dedicated pump for the generator is installed on the machine to avoid flow fluctuations, function downturn, and uneven traction problems. These issues are observed when a priority valve is being used. The controller allows for rapid magnetization and demagnetisation of the electromagnet.

INTELLIGENT CONTROLLER

WE ALSO OFFER A HIGH-PERFORMANCE INTELLIGENT CONTROLLER FOR GENERATORS TO REPLACE THE OUTDATED MECHANICAL CONTROLLERS.

- SAFE AND COMPACT
- DEDICATED PUMP FOR GENERATOR
- CONTROL VALVE FOR GENERATOR (USE ONLY WHEN NEEDED)
- ALL INSTALLATION CABLES
- HYDRAULIC PISTON MOTOR
- FOOT SWITCH INCLUDED

CUSTOMIZED PROGRAMMING

(6 DEFAULT MAGNETIZATION MODES)

- EQUIPMENT FAILURE DETECTION
- HMI FOR LIVE VISUALIZATION OF EQUIPMENT PERFORMANCE
- AVAILABLE IN 9, 15, 20, AND 30 KW

DGEN Series

DIESEL GENERATOR

WARRANTY

1
YEAR

The Bateman Engine Drive Magnet Generator comes fully assembled and ready for installation on your machine.

INSTALLATION KIT INCLUDES

- HMI cable
- Magnet cable
- HMI controller and clipper switch for magnet activation

GMD Series

MAGNETIC BUCKET

MAGNETIC TOOTH BUCKET

MAGNET COMPLETELY INTEGRATED TO YOUR TOOTH BUCKET DIG, SORT, DEMOLISH, AND MAGNETIZE WITH ONLY ONE MULTI-PURPOSE TOOL.

- IDEAL FOR DEMOLITION WORK
- AVAILABLE FOR EXCAVATORS RANGING FROM 16 TO 90 TONS.
- AVAILABLE IN 230VDC OR 24VDC VERSIONS
- FULLY PROTECTED SUPPLY WIRES

Ideal for sorting material with a thumb

PHM Series

HYDRAULIC PULVERISER

DEMOLITION TOOL

CRUSHING POWER UP TO 150 tons!

High performance cylinder with high-speed valve with a cycle time of less than 6 seconds (optional).

Available with or without electromagnet

- Several types of interchangeable teeth
- Available with or without rotation
- 5 models available
- Optional magnet (24v or 230v)
- Ranging from 10 to 50 tons

ALL OF OUR SOLUTIONS ARE PERFECTLY ADAPTABLE TO THE MACHINERY AND THE SPECIFIC REQUIREMENTS OF CONTRACTORS IN SEVERAL INDUSTRIES, SUCH AS THE PORT INDUSTRY.

LIFTING

DIVISION \ GRYB

GRYB specializes in the creation and fabrication of lifting products designed to support the port, transport, industrial, and railway industries. These lifting solutions are designed to be fully compatible with to the specialized equipment of these sectors. We also offer our clients the option to design their own custom attachments specifically for their unique needs.

C-HOOK Series

C-HOOK

MOVE AND POSITION HEAVY COILS WITH A LIFTING MACHINE

DESIGNED TO LIFT HEAVY OBJECTS

CUSTOM MADE

We offer our clients the opportunity to design their own custom attachments for their unique needs.

- AVAILABLE IN A VARIETY OF DIMENSIONS AND CAPACITIES

- SUPPORT (OPTIONAL)

- BUMPER TO PROTECT THE COIL

DESIGNED TO SAVE SPACE!

PRO Series

PRONG

MOVE AND POSITION HEAVY COILS WITH A LOADER

DESIGNED FOR HANDLING ROLLS OR SHEETS OF STEEL, ALUMINUM, AND MORE!

Several lengths and capacities available.

- ATTACHES TO THE UNDERCARRIAGE

- STRONG STRUCTURE

- INCREASED VISIBILITY

BFI Series

SPREADER BEAM

LIFTING AND HANDLING SOLUTIONS CUSTOMIZED TO YOUR NEEDS

CUSTOM DESIGN

We specialize in the creation and fabrication of products designed to support the port, railway, and storage industries.

Lifting and handling solutions are adaptable to the extreme conditions and the specialized equipment of these areas of activity. Thanks to our engineering department, we also offer our clients the possibility to create unique projects that can be tailored to their reality.

DIMENSIONS AND CAPACITIES ADAPTED TO YOUR NEEDS

AVAILABLE IN A VARIETY OF CONFIGURATIONS AND APPLICATIONS

- HANDLING IS CONDUCTED BY CRANE, A LIFT TRUCK, OR AN EXTENDABLE LOADER ARM

- AVAILABLE WITH ELECTROMAGNETS

CLS Series

CONTAINER SPREADER FRAME

- IDEAL FOR AUTOMATIC OR MANUAL CRANES
- FOR 20 FT OR 40 FT CONTAINER
- MODEL AVAILABLE FOR LOADER

TEST STATION

Capacity of 150 TONNES

- ALLOWS TESTING OF LIFTING EQUIPMENT UP TO 50 'X 10' X 17 'DIMENSIONS
- ALSO AVAILABLE FOR ELECTROMAGNET

ALSO AVAILABLE

- Analysis of welds
- Equipment certification
- Annual testing
- Certificate of conformity

MACHINE MODIFICATIONS

DIVISION \GRYB

CONSTRUCTION

DEMOLITION

At GRYB, we have extensive experience designing and manufacturing customized products. We specialize in the creation and fabrication of long and high-reach products as well as accessories for excavation and demolition applications. We're proud to also offer safety and protection accessories for your machine.

WARRANTY

1
YEAR

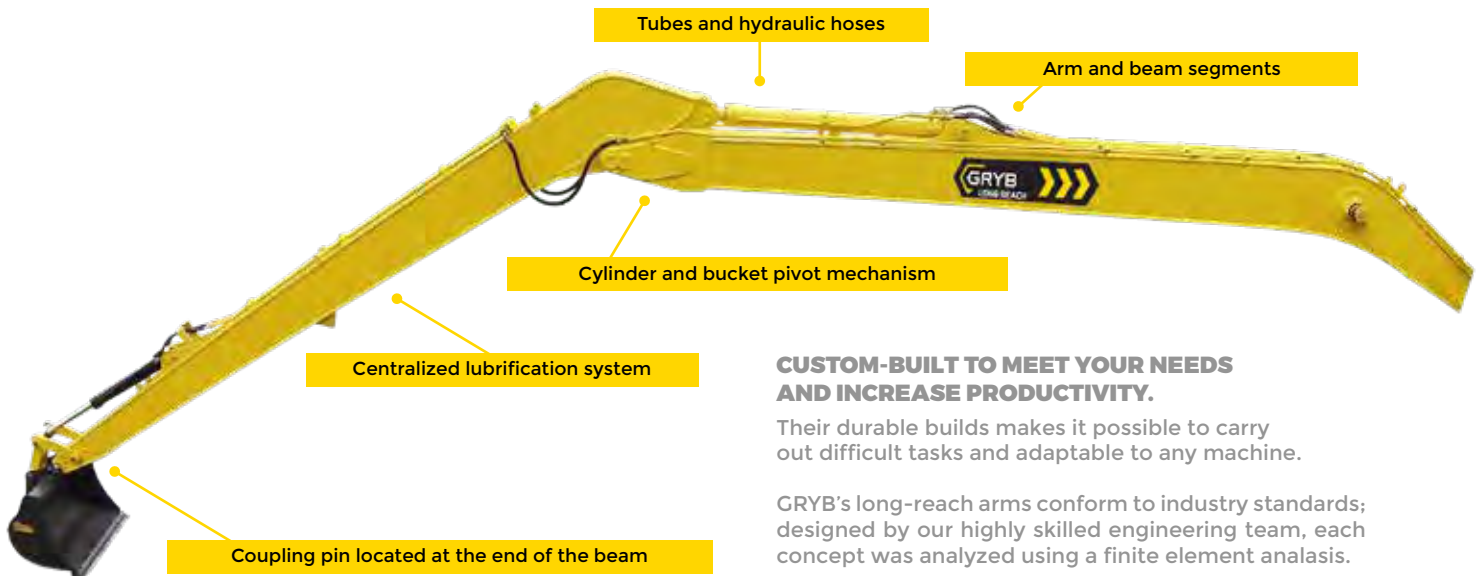

LR Series

LONG REACH

TAKE YOUR PROJECTS TO A WHOLE NEW LEVEL

CUSTOM MADE

- LENGTH ADAPTED TO YOUR REQUIREMENTS
- OPTIMIZED WEIGHT
- FITS ALL MAKES OF EXCAVATORS
- CARRY OUT DIFFICULT TASKS

CUSTOM-BUILT TO MEET YOUR NEEDS AND INCREASE PRODUCTIVITY.

Their durable builds makes it possible to carry out difficult tasks and adaptable to any machine.

GRYB's long-reach arms conform to industry standards; designed by our highly skilled engineering team, each concept was analyzed using a finite element analysis.

The smooth and stable operation as well as optimal distribution ratio of weight-strength (resistance) of our arms brings them to a whole new level.

GRYB designs and manufactures long-reach booms for all types of excavators to enable our clients to accomplish their most demanding projects.

APPLICATIONS

- Dredging of rivers and oceans
- Excavation of deep foundations
- Construction of ditches
- Construction of coastal dikes
- Pond dredging

HR Series

HIGH-REACH ARM

DEMOLITION OF HIGH BUILDINGS AND ROAD INTERCHANGES

SPECIALLY DESIGNED TO WORK WITH YOUR DEMOLITION EQUIPMENT

- IDEAL FOR TIGHT-SPACE DEMOLITION
- A HIGHLY SKILLED ENGINEERING TEAM ACHIEVED ITS DESIGN

With its wide-operating range, it allows the execution out of demolition activities safely

- Its build makes it easily adapted to any machine
- A variety of options available

AVAILABLE

- Cabin protection
- Excavator protection
- Hydraulic or mechanical traction available
- Counterweight
- Range limiter

WARRANTY

1
YEAR

BDR Series

DEMOLITION ARM

DESIGNED FOR THE DEMOLITION OF HIGH WOODEN STRUCTURES

IDEAL FOR HIGH DEMOLITION WORK (LIGHTWEIGHT)

- COMPATIBLE WITH ALL EXCAVATOR BRANDS
- THE BOLTED HEAD ALLOWES THE USE OF VARIOUS FORMS OF CLAWS

Kit of bolting female couplers

PROPOSED COMBINATION

Female couplers on a bolted plate allow the use of the demolition arm on multiple excavators.

WARRANTY

1
YEAR

LS Series

BOOM AND STICK

ACTS AS AN INTERMEDIARY BETWEEN THE ORIGINAL BOOM AND THE LONG-REACH BOOM

AFFORDABLE WAY TO INCREASE THE WORK RANGE

FUNCTIONAL ATTACHMENT THAT MEETS THE HIGHEST INDUSTRY STANDARDS.

OPTIONS

- Counterweight
- Wide range of buckets
- Quick-couplers
- Attachment guidance system (depth)
- Auxiliary hydraulic system
- Proximity switch (rear sensor)
- Extra LED lights
- Stick cylinder
- Cylinder and bucket's pivot mechanism

*Also available in the drop nose model for material handling.

SE Series

BOOM AND STICK EXTENSION

EASILY ADAPTED TO YOUR MACHINE

ALLOWS QUICK SWITCHES BETWEEN A LONG-REACH EXCAVATOR AND THE ORIGINAL EXCAVATOR.

FINITE ELEMENT METHODS OF ANALYSIS ARE EMPLOYED TO ENSURE PRODUCT RELIABILITY AND DURABILITY. LIGHT-DUTY DREDGING.

INCREASES THE WORK RANGE OF THE EXCAVATOR AND WIDENS THE RANGE OF POSSIBLE OPERATIONS.

Several lengths available for each excavator.

OPTIONS

- Counterweight
- Wide range of buckets available
- Quick-coupler
- Attachment guidance system (depth)

MH Series

SPECIALIZED ARM FOR HANDLING MATERIALS

EMPTY BARGES, BOATS, AND TRAINS

WORK NEARBY, AT A DISTANCE, OR HEIGHTS.
FASTER AND EFFICIENT MATERIAL SORTING.

ALSO DESIGNED FOR WOODCOURSES, RECYCLING CENTERS, AND SCRAPYARDS.

- Allows you to attain hard-to-reach places
- Provides high stability

MADE FOR:

- WOOD YARDS
- RECYCLING CENTERS
- SCRAPYARDS

ALSO AVAILABLE:

- HYDRAULIC CABIN INCLINATION
- HYDRAULIC CABIN ELEVATOR
- FIXED CABIN LIFTER

DESIGNED TO MEET THE NEEDS OF OUR CUSTOMERS AND OFFER OPERATORS SUPERIOR CONTROL.

SPECIAL PROJECTS

SALES PROGRAM

BECOME A DEALER!

We are currently looking for distributors interested in selling or distributing our products.

We cooperate with our distributors to provide useful selling tips and a complete understanding of our products.

We offer an attractive discount program.

Financing plan available.

SALES SUPPORT

- A full-time, on-the-road sales team providing sales support
- Personalized training program for each distributor
- On-site measurements
- Customized designs tailored to our customers' needs
- Replacement parts available express (24 h)
- Large highly skilled engineering team
- Big, complete, efficient service team
- Technical support and demonstrations during trade shows
- Marketing support (flyers, datasheets, advertisements, newsletters, videos, website)
- Enhancement of our customers' visibility

If you have any questions, please feel free to contact us:

1 844 604-1396 | info@gryb.ca | GRYB.COM

GRYB is a passionate, innovative, and dynamic team coordinated to respond quickly and efficiently to each of its clients.

Our vast network of representatives and technicians are always ready and available.

We also offer a multitude of solutions, custom and turnkey projects, financing options, equipment loans, and large and small tips that make the difference.

All solutions are good when it comes to simplifying our clients' workload. Our corporate culture is innovation-based and our clients reap the benefits.
